Gameplay mechanics
Core loop design
Systems design
Game balancing
Playtesting & iteration

TECHNICAL

Unity (~7 years)
C# / .NET
Gameplay programming
Editor tooling
Multiplayer
WebGL / Mobile

TOOLS

JetBrains Rider
Git / GitHub
Steamworks

LANGUAGES

German
English

PROFILE

I'm a game designer and Unity developer, and I've been making games for 7 years. I like building mechanics and systems that feed into each other, then playtesting them until they feel right. My game Watermelon Game is on Steam with over 1,000 player reviews and a Very Positive rating.

EXPERIENCE

2023 – today — **Independent Game Developer**
Self-employed projects

- **Watermelon Game**: physics puzzle game with a multiplayer mode, built solo and released on Steam and the Microsoft Store (Very Positive, 1,000+ reviews)
- **Rogue Deck**: multiplayer roguelike card game in development
- Open-source Unity plugins (CustomScriptTemplates, Utilities)

2021 – 2023 — **Software Developer**
5Minds IT-Solutions GmbH & Co. KG

- Developed management software for solar plants and solar parks in .NET / C#

2019 – 2020 — Operations Coordinator – Design Offices
2012 – 2018 — Machine Operator – Tiefdruck Schwann-Bagel
2012 — Armored Engineer – Bundeswehr
2010 – 2011 — Bakery Clerk – Kamps GmbH

EDUCATION

2019 – 2021 — **Game Programmer**
School of Games, Cologne

- Two-year game programming and design education
- **Queue-Connect**: Global Game Jam 2020 entry, redesigned with a teammate into a mobile arcade game

2015 – 2018 — Abitur – Weiterbildungskolleg Linker Niederrhein
2009 – 2010 — Fachoberschulreife – Weiterbildungskolleg Mönchengladbach
2003 – 2009 — Fachoberschulreife – Realschule An der Niers
1998 – 2003 — Primary school – Gemeinschaftsgrundschule im Burgbongert
